

During visit of undersigned to Jawahar Navodaya Vidyalaya, Barahiya, Lakhisarai (Bihar) on 17.02.2019 to 18.02.2019, following instructions have been given to the Principal:-

1. The Overall academic activities of the vidyalaya are very good and it should be replicated up to class VI so that the entire students must get benefited with the positive environment of the vidyalaya.
2. Develop shade in the morning assembly arena with profile sheet and fix sound system so that it can be used for addressing the students without delay.
3. Change the timing of the vidyalaya. The students should report after breakfast and stay in the academic block till lunch. Provide light refreshment during break.
4. Morning assembly may be improved further as per following advice:-
 - (a) Reporting of students 05 minutes before assembly time and concluding the assembly sharp on time.
 - (b) Allowing all students perform in the morning assembly date wise without using notes/slips.
 - (c) Musical instrument should be played by other sets of students daily.
 - (d) Students should know how to change the programme with short notice and as per need of the hour.
5. Garbage free vidyalaya has bags of different type of garbage and dispose it at regular interval. Purchase one THELA RICKSAW to collect different types of garbage from different places- academic block/hostels/dining hall/staff quarter. Plastics in one bag, papers in another bag, and glass in next bag, so on and keep these garbage at one place in a shade so that it can be dispose of at regular interval. The garbage which can be changed in manure should be dumbled at one place.
6. Develop a nursery in the vidyalaya. (PGT-Bio, TGT-Science will provide their assistance with the help of Daily wage/Casual labour).
7. Develop four shades of profile sheet so that space available on first floor of the vidyalaya will be utilized to develop learning space/space for special classes/activity corner as per need to keep the items serviceable as well as dismantled items.
8. Develop one repair workshop and keep all repairable items in that workshop.
9. No furniture should be kept in open. Two rooms may be developed below the stair case to keep sanitation items in the vidyalaya.

Received.

18.2.2019

10. To ensure safety of girls and property of academic block the height of boundary wall may be raised with barbet wire fencing. Curtain wall must be erected in front of girls dormitory as the road is common for all the inmates and it is crossing in front of girls dormitory.
11. Provision of steel wires to dry the clothes in the Boys/Girls hostels.
12. After deciding the land use plan of the vidyalaya, plant fruit trees as per space available in the vidyalaya.
13. Develop 400 meter track as space is available in the vidyalaya. One drain is required behind the dormitories/academic block to drain out the rain water and other water to one point of the vidyalaya so that tension with local people for disposing water should be shorted out. The work may be given to CPWD with the additional phase building with recommendation of the vidyalaya to GM constructions NVS, Head quarters.
14. Make repair of remaining internal road from M&R. Proposal for additional fund may be submitted for the needful.
15. Chalk out a beautification plan and provide class notice board/display board/class/ room sign board in all the classes.
16. Develop a space to keep green vegetable and other items of the mess to keep working space free in dining hall.
17. Special fund may be asked from RO for execution of all above said work.

Please submit the work completion report once in a month till the end of works.
